Formal Curriculum - Priesthorpe - Computing

At key stage 3, students have one lesson of Computing (ICT) per fortnight. This increases to two lessons per fortnight at key stage 4. For Partnership students, there is an emphasis on digital literacy and E-safety. As well as developing functional skills around the use of the internet, Microsoft Office and Google Classroom, students also have the opportunity to learn coding and programming. There is an option to study GCSE Computer Science at key stage 4.
